Product data sheet no. 9142 - R-05

Issue: January 2019

Specifically designed as a projectile-absorbing surfacing material, **SPORTEC® shooting** provides protection over floors, walls and ceilings of indoor shooting ranges and nearby outdoor facilities. **SPORTEC® shooting** reliably absorbs dangerous ricochets and rebounds as documented by independent test reports. The material's remarkable elasticity makes bullet holes practically invisible after absorption. **SPORTEC® shooting** slabs installed on floors could be covered. It provides a seamless surface which can be easily cleaned of gunpowder deposits. On walls and ceilings this coating is normally not required.
